

PicnixX

Welcome to PicnixX

Welcome to the world of PicnixX. PicnixX is a high-quality collection of modular outdoor furniture. The design of the PicnixX collection is unique. Thanks to this design and first-class quality, the PicnixX furniture is a real experience. Whether you use our products indoors or outdoors, in a private or business environment; the design is recognisable, timeless, sustainable, and above all: functional.

Thanks to the various configurations and options we offer in addition to our standard products, we can tailor our PicnixX product to your personal wishes. As a result, the possibilities of our collection are nearly unlimited.

All PicnixX products are hand made. We use the best materials and our staff has a real eye for detail. This is what makes the difference. Consequently, our products are extremely durable and have a very long life span. We do this as efficiently as possible to achieve the maximum result within your budget.

We hope that this brochure inspires you, and are looking forward to tackling your challenging request.

Maarten Snoek
Founder

Studio PicnixX

PicnixX Studio PicnixX is a multidisciplinary in-house design agency that provides design and consulting services. PicnixX is the perfect partner for custom-made projects. We can translate your idea into a solution in just a few steps, from your initial request to a design proposal. As the design team works in close collaboration with production, we can quickly provide an engineering solutions or cost estimation. Studio PicnixX is the partner for customised solutions.

PicnixX your partner for green solutions

In addition to our PicnixX furniture, we realise many private and public greenery projects. The combination of PicnixX with green elements creates an attractive space. PicnixX can supply planters, borders and green isles combined with seating elements. If required, we can also supply the substrate, trees and flowers. We are your partner for a total turnkey solution.

More than a table

Thanks to the design and superb quality, a PicnixX table is a real experience. Whether you use our products indoors, outdoors, in a private or business environment: the design is recognizable, timeless and above all: functional. A good example of this is the integrated sunscreen. The market lacked such a product. This has put us to develop the Sun Shade. As you are used to from us, we have chosen to work again exclusively with the best materials with the highest level of finishing.

Passionate about quality

Despite the consumer society we live in, we chose for quality instead of the low-cost, environmentally harmful products with a short life time we see around us. Our employees are driven by quality. Time and again we aim to create the maximum achievable quality that is possible. Every detail has been thought about. Our frame is made out of stainless steel and the Cumaru FSC hardwood we use is form the highest quality that is available in the market. Our products have a lifespan of more than 25 years even in our Dutch climate.

Cumaru

The PicnixX products are made of extremely durable Cumaru FSC hardwood. Cumaru wood has a very long lifespan and in addition it provides a high level of comfort due to its warm and high-quality product characteristics. The Cumaru hardwood is virtually without cracks or splinters. Cumaru has a lifespan of more than 25 years.

Stainless steel

The metal frame of the PicnixX products is made of highly durable stainless steel. The same applies to the mounting poles of the Sun Shade. These are also made of premium quality stainless steel. It is an awesome material that offers many advantages. Stainless steel is strong and tough. In addition, it is a great advantage that the steel needs less treatment before it is powder coated in a nice RAL colour.

Indoor

Thanks to the quality and multi – functionality of the PicnixX collection, it does not matter whether it is used outdoors or indoors. The timeless design and the many variations that are possible make the PicnixX collection come into its own in almost every context. This could be in a meeting room, consulting room, or for furnishing an antrance hall. If needed, we adapt the product fully meet your requirements.

Landscape

The PicnixX collection is very suitable for outdoor use. The products are extremely durable, vandal proof and have an extremely long lifespan. They are applicable in a private, business or public space. Due to the many variations that are possible, PicnixX offers a solution for nearly all furnishing request. A good example of this is the use of the PicnixX collection at the outdoor area of the Princess Maxima Hospital in Utrecht (NL).

Hospitality

The PicnixX products are inviting, comfortable, durable and therefore ideal for furnishing an indoor or outdoor hospitality area. Depending on your wishes we can supply a Sun Shade, Set of Backs, or Cushion Set with our tables.

Specials

Our collection as well as our production is flexible, which offers nearly unfinished possibilities for making products. Our in-house design studio Studio PicnixX can turn your idea into a product. Nearly everything is possible. Whether this concerns easy minor customizations, a different RAL colour or a complete new product. It is no problem for us. Please contact us and challenge us with your question !

Accessoires

Cushion Set

For all products except the Miss PicnixX you have the option to order custom-made, comfortable Sunbrella cushions. These cushions are all wether and increase the seating comfort of your PicnixX product even more with this high-quality cushions. The Subrella fabrics are virtually UV-resistant, water and dirt repellent. The cushion cover are detachable, so they can easily be washed. The filling is comfortable and of high quality.

Set of Backs

For the Mr. PicnixX tables collection it is possible to order a set of backs. The back provides more sitting comfort, in case, for example, you are enjoying an extensive dinner. The design is appealing and they are functional especially when you use the table for a long conversation or as place to work.

Sun Shade

Unique detail of the PicnixX concept is the patented integrated Sun Shade. This Sun Shade provides shadow and it looks awesome. And it creates an intimate cosy atmosphere. The Sun Shade is very easy to set up or to break down. The Sun Shade needs no maintenance. In the winter when you don't need the Sun Shade you can store the stainless steel tubes easily under the table.
