Dati Tecnici

Il nostro concetto di outdoor è quello di unire confort ed eleganza ad una tecnica manifatturiera unica ed innovativa collaudata da anni.

Il risultato è un divano in tessuto con tutte le caratteristiche per l'esterno, indipendentemente dall'esposizione al sole e alle intemperie.

Le strutture e i cuscini sono resistenti all'acqua grazie ad una fodera interna impermeabile che si asciuga molto velocemente e permette anche al rivestimento di asciugarsi in brevissimo tempo, quindi i divani possono essere lasciati alla pioggia e all'umidità notturna senza alcun problema.

In caso di maltempo estremo ed inutilizzo per lunghi tempi, è consigliabile proteggerli con le nostre coperture impermeabili, disponibili su richiesta.

Tutti i divani WOW Italy sono sfoderabili.

Technical Data

Our concept of outdoor is to join the best confort and elegance to a unique and innovative manufacturing technique tested for years.

The result is a textile sofa with all the suitable features for the outdoor, no matter the exposition to sun and bad weather.

The structures and cushions are water-resistant thanks to an inner waterproof cover that gets dry very fast and allows also the upholstery to dry off in a very short time, therefore sofas can be left in the rain and night humidity without any problem.

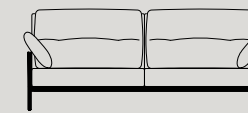

In case of extreme bad weather and when unused for a long time, it's advisable to protect them with our waterproof covers available on request.

All WOW Italy sofas are removable.
